

AL Manara Digital Library

Course Template

1. Author Information

Please provide the following details:

- **Full Name** (Last Name, First Name)
- **Institutional Affiliation**
- **Email Address**
- **ORCID ID**
- **Short Biography** (100–150 words)
 - Academic background
 - Current position
 - Main research/teaching areas
 - Relevant publications or projects

2. Course Title

- **Title in English**
- **Title in Arabic**

3. Keywords (5–8)

4. Course Abstract (Approx. 1,000 characters)

Provide a concise and structured summary including:

- **Course objective(s)**
- **Main themes or chapters covered**
- **Target audience**
- **Relevance and specificity to the Arab region**
 - Regional challenges
 - Case studies
 - Policy or socio-economic context

5. Learning Outcomes (Course-Level)

6. Course Outline

Provide a structured list of chapters in logical sequence.

Example:

1. Introduction to ...
2. Conceptual Framework ...
3. Tools and Applications ...
4. Case Studies in the Arab Region ...
5. Future Perspectives ...

7. Course Content

For Each Chapter, Include:

Chapter X: Title

(i). Short Abstract (150–250 words)

- Brief presentation of the chapter's objectives
- Key concepts addressed
- Expected learning outcomes

(ii). Sections

For each section:

Section X.X: Title

- **Description of the Content**
 - Main concepts explained
 - Key arguments or methodologies
 - Examples or applications (preferably from the Arab region when relevant)

(iii). Quiz

Provide **5 multiple-choice or short-answer questions**, including:

- Question
- 4 answer options (if multiple choice)
- Correct answer clearly indicated

The quiz should:

- Assess understanding of key concepts
- Include at least one analytical or applied question
- Reflect regional contextualization where relevant

(iv). References (Per Chapter)

Provide 5–10 references including:

- Peer-reviewed journal articles
- Open-access books or book chapters
- Official reports (UN, World Bank, Arab institutions, etc.)
- Reputable data sources

Use a consistent citation style (APA recommended).

8. Recommended References (Open Access Only)

Provide a consolidated list of high-quality **open-access references**, including:

- Open-access academic books
- Peer-reviewed journal articles
- Institutional reports
- Open educational resources (OER)
- Online repositories and datasets

For each reference, include:

- Full citation
- DOI or direct link
